

Reflected lighting & Ceiling Plan

Overview of hall fit-out

Case study – Primary School

Assembly hall Upgrade

**Brief** – Provide design and planning options for upgrading the existing school hall to improve general aesthetics, lighting, and acoustics facilities to enhance presentation facilities, combined with proposals for a new raised dais stage, theatre style curtains and lighting to improve the quality of school drama and events

**Scope of work** – Carry out a site survey to produce CAD drawing layouts and prepare schemes for seating and stage lighting layouts with outline specifications, finishes boards and Sketch 3D visuals. Incorporate scheme into a cost feasibility with contract programme for implementation when funds available.
